GOOD TO KNOW

This pattern is written in US terminology and is worked in continuous rounds unless otherwise stated.

I used the technique to create X stitches which means that I yarn under the hook instead of yarning over it when crocheting.

I strongly advise you to use stitch markers to avoid losing count and be careful of not making your stitches too loosely to avoid having gaps in your work.

Assembly

Sew the leaves together and sew the three berries at the center. Then sew everything at the top of the head. Be careful to keep the leaves mostly off the face.

Embroider the eyes, mouth and cheeks between the arms as you can see on the picture. Give some shine to the berries by embroidering some white yarn (see the pictures for reference)

Finally, sew the golden loop between the three berries.
